Bürobauten

Logistikcenter Hug Baustoffe AG, Volketswil

2026

Hug Baustoffe AG's new logistics center has been built near the railroad tracks in Volketswil. The building features a basement, a high-bay warehouse, and a three-story office wing.

Cantonal Court, Lausanne

2025

The extension fits perfectly into the south-eastern part of the existing Lausanne cantonal court building and brings together all the courtrooms on the L'Hermitage site in Lausanne.

Replacement construction of old brickworks, Haufland Riedikon

2024

The replacement construction of a modern office and commercial building using timber construction methods is combined with the use of clay as a material. The implementation impresses with its sustainable construction and excellent CO2 balance.

New Construction of the Y80 Multifunctional Laboratory Building, Zurich

2023

The University of Zurich's (UZH) multifunctional Y80 laboratory building brings together three leading research institutes and provides a state-of-the-art infrastructure for medical research. Floors 1 through 3 were constructed using prefabricated timber elements.

Conversion of tenant house, Biberstein Castle, Biberstein

2022

The listed residential building was converted into an office building. This included a holistic refurbishment, in which all new construction requirements came into play.

Conversion Alte Dorfstrasse 22, Affoltern a. A.

2021

In the village center of Affoltern am Albis, the residential and commercial building with the former old «Schmitte» on the first floor is to be preserved. Timbatec was responsible for the timber construction planning and fire protection supervision and supported the building physics with the sound insulation.

Office and Multi family house Rüllenstrasse, Tägerwilen

2021

The new apartment building offers 5 residential units and four small office spaces.

«Krokodil» house in Lokstadt, Winterthur

2019

Where locomotives and machines were once built, a new district is now being created. Urban living and working space for over 1,500 people is being created right next to Winterthur railroad station. Timbatec was responsible for the timber engineering services for the first building of the new Lokstadt.

New construction RFSM Building F, Fribourg

2018

The new four-story building for the RFSM is the first hospital in Switzerland to be constructed entirely of wood. Timbatec provided all timber engineering services for this Minergie-P building, contributing to the building's safety.
